Product Description

Husqvarna 120iTK4-P Battery Pole Saw (tool only)

Husqvarna 120iTK4 battery pole saw combines petrol performance with zero direct emission and quiet operation. 120iTK4 is a Telescopic pole product, which means that you can combine the “body” of the machine with either a pole saw or a hedge attachment. This makes it a versatile and convenient tool for several operations depending on the task at hand. Equipped with a telescopic tube with up to 4m reach and split shaft for easy transportation.
